

Health & Safety Policy

Introduction

This is a Statement of Organisation and Arrangements for The IDEAL Alliance. The statement does not replace Plymouth City Council's General Statement of Policy (see Plymouth City Council Health and Safety Manual) or the LAs Health and Safety Policy Statement for Education Establishments but is supplementary to them for the benefit of all users of the premises. Copies of the above documents, along with other information on health, safety and welfare matters will be found in the school's office.

This statement deals with those aspects over which the Governing Body has local control and covers safety associated with the building structure, plant, fixed equipment and services for which other Officers of the Local Authority (LA) also have responsibility. It describes how these responsibilities are discharged in respect of employees, pupils, visitors and other users of the premises.

The aim of the statement is to ensure that all reasonably practical steps are taken to secure the health, safety welfare and security of all persons using these premises and in particular to ensure that:

1. All teaching and non-teaching staff make themselves fully aware of relevant Health and Safety issues, regulations, practices and school procedures for both curricular and non-curricular areas of activity (e.g fire safety, bus duty, visits, etc);
2. Staff and pupils/children work collectively to secure safe environments and procedures;
3. A suitable management system has been developed to make sure that arrangements for health and safety are monitored and a regular report submitted to the governing body so that an effective response can be made to issues and incidents, enabling high standards of safety to be achieved, maintained and improved;
4. Training needs are identified and appropriate training is offered to staff and governors.
